MOUNTING SOLUTIONS

## LED LIFTER

Electrical in height  
adjustable trolley for  
LED walls and large  
LCD displays

Universal solution, optimal ease  
of use, beautiful design.

# Meet the LED Lifter

## Universal mobile mounting solution for displays from 98 inch

The LED Lifter has been specially developed for safe mounting and height adjustment of wall and large LCD-displays. SmartMetals recommends 98 inch as the minimum screen size. For displays smaller than 98 inch SmartMetals offers other suitable solutions.

## Electrical in height adjustable for optimal ease of use

Ease of use is an important benefit of the LED Lifter. It starts with the installation. The LED Lifter is supplied as a complete solution. It only needs to be assembled as desired. Benefit for the installer: valuable time saving.

In daily use the electrical in height adjustable LED Lifter is a breath of fresh air. Adjusting the large display to the correct height is simply a push of a button. Moving the trolley to another location? Not a problem. Despite its weight, the LED Lifter can be moved smoothly and safely.

And do not worry about the dimensions. In the lowest position, the trolley fits through any regular doorway.

## Elegant and stylish design

Despite its robust size, especially with 130 inch VideoWalls or more, the installation looks elegant and stylish. Making it fit seamlessly into any setting. The high-quality materials and beautiful finish give the LED Lifter a luxurious look and feel. Cables do not disturb the image, they are concealed in the e-chain and cabinet.

The LED Lifter offers lockable storage space. Within you can store not only your valuable peripherals, but anything you would like to keep out of sight, such as cables and power strips.

## Also suitable for freestanding use

The 192.1200 LED Lifter comes standard with castors and adjustable feet. Is the trolley intended for use in a fixed position? In which case mounting the levelling feet is the most beautiful and best solution.

Mobile

Freestanding
